Mehmet KADIOGLU

Computer Engineering Student

Recep Tayyip Erdogan University, Faculty of Engineering and Architecture,

Department of Computer Engineering

Personal

Contact Info	+90-552-679-5829 mehmetkadioglu7@gmail.com	
Birth Place	Trabzon/30.01.2002	
Residence	Ortahisar/Trabzon/TURKEY	
Foreign Languages	English	
Marital Status	Single	
Military Service	Not Done	
Driving License	Exist	
LinkedIn	linkedin.com/in/mehmet-kadioglu	
Github	github.com/mehmet-kadioglu	
Hackerrank	hackerrank.com/mehmet_kadioglu	

Career Mission

My professional mission is to improve the quality of life for people and the environment by developing, producing, and implementing innovative solutions based on multidisciplinary skills in technical, social, and administrative areas.

Education

2021- Present (3.75/5.00) **(Regis. date: 01.03.2021)** **(Grad. date: xx.02.2025)** **(Dip. number: 75)**	Recep Tayyip Erdogan University, Computer Engineering (%30 Eng.) (BS)
2016-2020 (4.25/5.00) **(Regis. date: xx.09.2016)** **(Grad. date: xx.06.2020)** **(Dip. number: 85)**	Mahmut Celalettin Okten Anatolian Imam Hatip Science and Social Sciences Project School/Trabzon

Publications

The Role of Externally Applied Rutin in Protecting Plants From Heat Stress(Poster)

Mehmet Kadioglu, Serap Erogulları Bektas, Asım Kadioglu. 1st International Congress on Plant Biology, IConPB, May 10-12, 2018. Selcuk University, Konya, Turkey.

Projects and Responsibilities
TUBITAK 1001 Project (2022-Present) - Role : Researcher
IoT Based Monitoring Platform Design, we will build mobile application, firmware, database and service applications.
TEKNOFEST SAMSUN 2022 (2021-Present) - Role : Researcher
We are building and ITS (Intelligent Transportation System) project based on public transportation problems, we will build mobile application and required services.
TUBITAK 2204-A Project (2018) - Role : Manager
The Role of Externally Applied Rutin in Protecting Plants from Heat Stress. Applied rutin($C_{27}H_{30}O_{16}$) to leaves of plants. Plants placed on high temperatures. Observations proved that rutin substance be able to mitigate noxious effects of high temperatures.

Awards, Competitions & Seminars
Ministry of National Education Trabzon Robot League 5th Round (2018-2019 Academic Year)
Line follower robot category, Yol-Is Union Secondary School, Trabzon.
Trabzon Robot League (2018-2019 Academic Year)
Ministry of National Education, Line follower robot category, Vocational and Technical Anatolian High School, Arsin, Trabzon.
TUBITAK 4004 Project (2018)
Education in Nature and Science Schools Project, I Get My Energy From Nature, 28 September - 2 October 2018, Duzkoy Nature and Youth Camp, Trabzon.
12th Robot Competition (2018)
12th International Ministry of National Education Robot Competition, Line follower robot category, 09-11 May 2018, Sivas.
TUBITAK 2204-A Project (2018) - Third Prize
48th High School Students Research Projects Competition (TUBITAK 2204-A), Third Prize in Biology, 12-15 March 2018, Erzurum.
Diction, body language and effective communication by Cem Ogretir (2018)
8 hours seminar, Karadeniz Technical University Congress Center, Trabzon.
Chess Tournament (2016) - Second Prize
Mahmut Celalettin Okten Anatolian Imam Hatip Science and Social Sciences Project School Chess Tournament, Trabzon.

Focused Topics

- Software Development
- Internet of Things
- Mobile Development
- Object Oriented Programming

Engineering Experience	
Development Toolkits and Frameworks	● C, C++, Java, C#, Kotlin, HTML, CSS, JavaScript ● Windows, Linux ● Database Design (ER-Diagrams) and Normalization Operations ● MySQL, MongoDB ● T-SQL, PL/SQL ● GIT, MAVEN, TFS, SVN ● React Native, Flutter ● Visual Studio, Visual Studio Code, Eclipse, NetBeans, Android Studio, Arduino IDE
Project Management and Software Design	● Jira, Trello, Confluence, Git Stash / Bitbucket, MS-Project MS Word/Excel/Powerpoint/Access, and several toolkits. ● Agile Methodologies / Scrum – Kanban ● Software Development Life Cycle Documentation and Management ● UML Design and Implementation, PlantUML, UMPLE ● Static Code Analysis (Understand) ● Object-Oriented Programming (OOP), Aspect-Oriented Programming (AOP) ● Test Driven Development (TDD)
Cryptography	● OTP Generation and Validation ● Cryptographic Operation Implementation for File Encryption and Decryption (AES DES DES3 SHA1 SHA256)
Internet of Things (IoT)	● ESP32 Projects ● Arduino Projects
Radio Access Network (RAN) Technologies	● ASN.1 Encoder and Decoder
